

BANNOCK COUNTY

LOCAL PRESENCE, GLOBAL REACH

The growth for businesses in Southern Idaho is great, especially for those with international and domestic shipping as the crux of their business model. There has never been as many resources in the region as there are today to get a company's products into the hands of their customers.

RAIL PROMOTES SUSTAINABILITY

The Savage Transload Network can help you reap the benefits of rail freight without the on-site rail access at your facilities utilizing Savage-operated facilities owned by Savage, Customers, and third parties. Here are some things to consider when weighing traditional trucking versus a rail-and-trucking approach:

- ✓ 1 railcar can hold up to 4 truckloads of material
- ✓ Rail is a 24/7 operation
- ✓ Rail shipping saves fuel and reduces carbon footprint

BANNOCK COUNTY IMPORTS & EXPORTS

Thanks to solutions like transloading, the world has become much smaller and the profits much greater for businesses that make use of the Savage Transload Network. Idaho is home to two Savage Transload Network facilities:

- ✓ Southern Idaho Intermodal
- ✓ Pocatello, ID Transload
